SUMMARY

Software Developer and Information & Communication Engineering student at Al-Nahrain University with a strong focus on backend development. Experienced in building scalable applications using Node.js and modern backend technologies, with hands-on practice in authentication, REST APIs, and database design. Passionate about continuous learning and contributing to impactful engineering teams while expanding technical expertise in real-world projects.

WORK EXPERIENCE

NewCoreCompany-Software Developer 2025/7 – Present

At New Core Company, I develop websites internal use and client projects. My work primarily involves building software development Enterprise solutions using Node.js, Express.js, PostgreSQL, Next.js, SQL, and Keycloak. I continuously enhance my technical skills and contribute to the company's growth by participating in specialized training programs provided by the organization.

Asiacell – Summer internship Training 2025/8 – 2025/9

Participating in a summer training program focused on service desk fundamentals, VoIP, RF & GSM basics, telecom generations, and an introduction to SCM, along with professional development in CV writing and interview preparation.

UPGRADE– internship Training 2025/7 – 2025/9

I previously completed the UPGRADE™ initiative, a well-structured program designed to develop essential skills required in today's professional world. The program focused on communication, emotional intelligence, leadership, and proficiency with modern tools and technologies. This experience broadened my perspective, strengthened my abilities, and allowed me to learn directly from experienced professionals.

The Chance Program – Android Development Training 2025 (Three Months)

I previously enrolled in The Chance, a non-profit training program focused on Android development with Kotlin. The program emphasizes Clean Architecture, Test-Driven Development (TDD), and Agile (Scrum). During the first phase of my training, I have started building foundational skills in Jetpack Compose, Git/GitHub, and Figma, while working progressively in team-based projects under the guidance of

United Sections |social Media vlogger 2024

Mora | content researcher 2023 – 2024

SKILLS

Technical: Node.js | Express.js | JavaScript (ES6+) | SQL |ORM | Sequelize | Prisma | Kotlin | Android Development | Git & GitHub | REST APIs | Asynchronous Programming | HTML & CSS) | Linux (Basics) | MongoDB | Mongooso | Python (in AI) | Tailwind | Postman | JWT | Agile (Scrum) Test-Driven Development (TDD) | C# | Keycloak | Next.js | Wireless & RF |Practical Networking |Telecom Security

Soft Skills: Self-learning | Problem Solving | Team Collaboration | Communication | Time Management | Adaptability

Other: Content Creation | Social Media Strategy | Public Speaking | Critical Thinking

EDUCATION

CollegeOfInformationand communication Engineering at Al-Nahrain University Completed in 2026

PROJECT

1. TaskManagement API
- A RESTful API for managing tasks with features like user authentication, task creation, updating, and deletion. Built to support multi-user task operations and error handling with modular code structure. Tech: Node.js, Express.js, MongoDB,Mongoose, JWT, REST,Render GitHub Repository : [Click Here](#)
2. Natours API A backend API built for a tour booking application. Includes advanced features such as filtering, sorting, pagination, authentication, authorization, and data validation. Demonstrates scalable architecture and follows MVC pattern. Tech: Node.js, Express.js, MongoDB, Mongoose, JWT, REST GitHub Repository : [Click Here](#)
3. Book Review API A secure and robust RESTful API for managing books, user accounts, comments, and tags. It features a complete JWT authentication system, role-based access control, and comprehensive CRUD operations, with a strong emphasis on security and error handling. Tech: Node.js, Express.js, PostgreSQL, JWT, bcrypt, Express Rate Limit, Helmet, XSS-Clean. GitHub Repository: [Click Here](#)

CERTIFICATES & COURSES

- GettingStartedwithGitand GitHub
- Postman API Fundamentals Student Expert certification
- Node.js, Express, MongoDB & More: The Complete Bootcamp
- IBM Hands-on Introduction to Linux Commands and Shell Scripting
- IBM Python for Data Science, AI & Development
- IBM Introduction to HTML5
- University of Michigan Introduction to Software Engineering
- University of Michigan Programming with JavaScript
- introduction to cybersecurity (CISCO)
- IOT hackathon project
- Asiacell (ASAS) internship Summer Program

LANGUAGES

Arabic (NativeSpeaker)

English (Professional Working Proficiency B2)

VOLUNTEERING

- VolunteeratTdxeventVolunteerat Baghdad International Book Fair
- Participant in the Parliamentary Development Institute with the House of Representatives and Humanitarian Organization for Humanity. - Volunteer in the university podcast (Laama)
